VA15/VA20 Drum Pumps

VERDERAIR®

Description

The VA15 and VA20 are also available as drum pumps. In combination with the available suction tubes, they are ideal for use on 200 liter drums or on iso containers. The Pump has a vertical suction connection (use option OD at the end of the pump coding) on which the special base kit and tube can be attached. The availability of different materials makes those pump your ideal and safe drum pump for all kind of media.

Your benefits

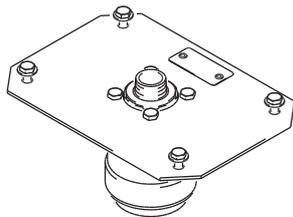

- Easy installation
- Light weight, easy to handle
- No overpressure possible
- Can be used with a liquid gun
- No electricity needed
